PERMITTING

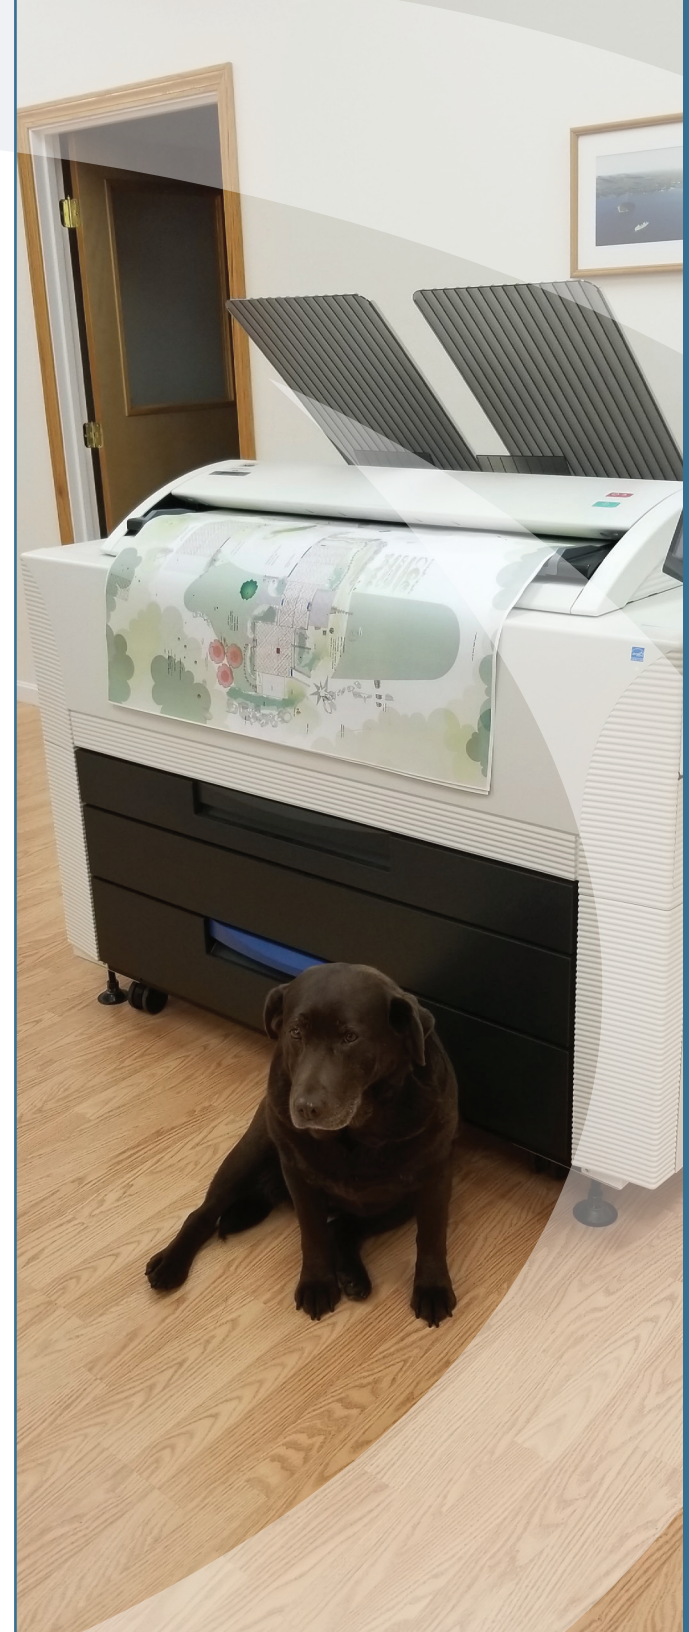

Herrick & Salsbury, Inc. is skilled in determining permitting needs. We take a lead role and advocate for our clients in front of planning boards and at public hearings representing our clients' best interests.

Owner Stephen R. Salsbury is a State of Maine certified code enforcement officer. He demonstrates a deep understanding of the complexities within land use regulations.

TECHNOLOGY

At Herrick & Salsbury, Inc., we are constantly upgrading our technology. Today, we use integrated networked systems to communicate via the web from the field to the office. We also use that infrastructure to support the networked GPS technologies enabling us to survey in real time at the job site. Our physical office supports our staff with Autodesk platforms, GIS software and high speed dry-fused toner printing for archival quality architectural sized plans.
