

LINE MARKING

At Herrick & Salsbury, Inc. we offer a variety of line marking options. We can assess and mark lines as appropriate. “Marking” or placing intermediary marks along a boundary line may make sense for a variety of reasons, including a visual record/ personal interest, notification to an abutter, tree harvesting, building or construction, prevention of a future encroachment, field mowing, maintenance of boundary lines, and placing a fence.

At Herrick & Salsbury, Inc. we can mark your lines in the following ways:

- Brush and blaze/spot
- Hang flags
- Set wooden grade stakes
- Set metal stakes
- Set fiberglass stakes
- Set premium fiberglass stakes
- Place “boundary line” signs
